

Student Evaluations

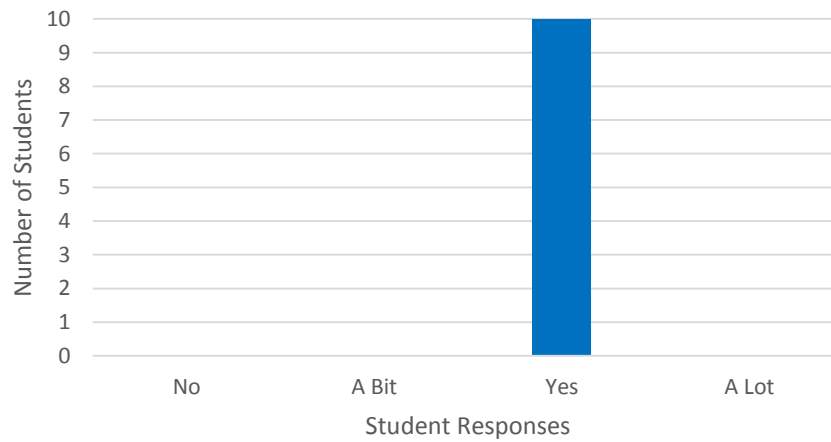

A group of senior students from Makarika School have been participating in an on-going water monitoring program in their East Coast community. The following questions were asked at the end of the year and resulted in these responses:

Student Evaluation: Makarika School
Do you think doing these LEOTC programs has increased your knowledge of science?

Student Evaluation: Makarika School
Do you think these programs have helped with other parts of your school work?

Student Evaluation: Makarika School
What other learning areas do you think
the LEOTC programs helped with?
